CUT & POLISH

Introducing Fibercut - reinforced separating discs ideal for porcelain and zirconia processing. High cutting rate, low heat creation and no vibrations. Highly flexible, high structural strength, and no discolouration. Silicone carbide for Porcelain and Diamond for zirconia. 10 pieces in each packet. (Order codes: EVE-FCS22/02, EVE-FCD20/02)

This very flexible and extra coarse Diapol Diamond Polisher is perfect for smoothing and shaping porcelain. In addition it provides a high shine results without glazing. (Order code: EVE-H22DG)

BOND 3C BOND

An exceptional bonding material for porcelain, titanium-free non-precious and chrome-cobalt alloys. No greening, with a warm and natural porcelain shade. (Order code: CK140-3CB-20)

VERY HANDY INDEED

The Handy Articulator - A cost-effective, yet reliable choice, with a state-of-the-art ergonomic design. Made from a light-weight aluminium frame which is easily handled, especially with separable upper and lower frames to facilitate wax-ups. Ensure high precision with an interchangeable mounting system and specially designed magnets for easy relocation of the upper and lower cast. Its shoulder design allows for smooth operation and longer durability. An optimised condylar inclination of 25 degrees with smooth lateral and protrusive movement makes it a very popular choice.

(Order code: SOL-ART-HAN)

PIEZO GAS TORCH

This Micro Torch ignites in just one second, with the state of the art Piezo Electronic Ignition System. Simply press and it's ready to use! By easily adjusting the gas volume and needle control valves for a fixed or variable flame, the temperature is right on the money. With a gas chamber capacity of 10 grams, the burn time rate is up to 50 minutes before refilling with any multiple head butane gas lighter refill container.

(Order code: PRINK2000)

BLADES BLADES & BLADES

Swann-Morton have become a world leader in the manufacture of surgical blades, scalpels and handles. It is a name respected globally for quality, precision, consistency and reliability and recognised for combining traditional blade making skills with the latest technology. Available in numbers; 10, 1, 15, and 23. Handles also available.

(Order codes: SM_)

LAMINATED MOUTHGUARD BLANKS

Offering the only pre-made laminated mouthguard material in the industry. By laminating two layers of soft EVA together, the laminate has excellent tensile strength. Available in 125 mm x 125 mm:

- Plain 3.5 mm
 - Plain 4.5 mm
 - Two Colours 3.5 mm
 - Three Colours 3.5 mm
- (Order code: KE9_)

These autoclavable universal scissors are ideal for trimming your thermoforming materials with ease.
(Order code: PRESCISSU)

UP FOR A TRIM?

POLISHING

A soft, elastic polishing disc to pre-polish and smooth soft and hard thermoforming materials. Featuring a half open stabilised structure it will last four times longer than standard Lisko discs.

With a speed range of 4000 - 10000 Rev/Min, these discs are an ideal alternative.

Available in packs of 10 pieces (incl. mandrel)
(Order code: LSKO223200 - Lisko-S/Fine; other Lisko discs also available:

LSKO223102 - Coarse,
LSKO223101 - Medium, LSKO223100 - Fine)

SCOTCHBRITE

Our range of miniature Scotchbrite wheels are ideal for trimming mouthguards and relining polishing.

Available in:

- Ultra Fine (HA25625HP)
 - Fine (HA25525HP)
 - Medium (HA25125HP)
 - Coarse (HA25025HP)
 - Extra Coarse (HA25025HP)
- (12 pc/box)

STORAGE OPTIONS

High Gloss Ortho Boxes are perfect for storing mouthguards, retainers, bleaching trays and splints. Made of flexible plastic (polypropylene), the box has a hinge design and secure latching system to ensure maximum protection.

Ideal for patients with removable appliances, the box is 3/4-inch (19 mm) deep.

Available in 12 piece boxes:

- Red, Dark Blue, White, and Assorted, & Fluoro Assorted
- (Order code: KEY9575_)

We also offer ortho boxes with a 30 mm depth, the same hinge design and secure latch system in three colours; red, white, and blue. Available in single or multiple units.
(Order code: MGBX_)

BLEACHING LAMINATES

It's become standard practice to bleach teeth using carbamide peroxide and a bleaching tray. Our Bleaching Laminates are ideally suited for making the tray and withstanding bleaching products.

It is only .020 inches (0.5mm)

thick once it's formed

over the model and

has a foam liner to

absorb the bleach, thus

decreasing the time for the patient.

(Order code: KE9605800X_)

NON-LAMINATED BLANKS

If you have a client who insists on a uniquely coloured mouthguard, choose from 37 plain colours or combine them to make over 34 billion colour combinations.

Talk about spoilt for choice!

Available in Round or Square with a 4mm thickness.

(Order code: KE959_)

THE ELIMINATOR

This solvent will eliminate wax prior to packing. It also removes zoe paste, smooths your mouthguards, and dissolves impression tray adhesive. (Order code: RAPID1)

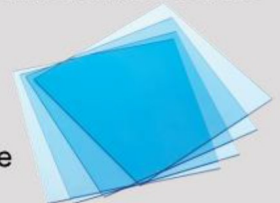

SPLINT MATERIAL

This stiff and clear material is ideal for hard splints, thin splints, surgical trays, orthodontic retainers and bleaching trays.

The material sticks to acrylics for various dental appliances. The versatile splint material will surely be used in any lab or office.

Available in 0.5mm - 2.0mm thicknesses

(Order code: KE961_)
