

# Trade Waste pre-treatment

## Other pre-treatment products

This fact sheet lists dry arrestor pits, general purpose pits, silt arrestors, plaster traps, solids settlement pits, grease removal devices and under sink pump units that are available to enable customers to comply with Sydney Water's requirements for treating trade wastewater. You must arrange installation by a licensed plumber.

Installation of pre-treatment products must meet Australian Standards, Workplace Health and Safety standards and Sydney Water guidelines. Only pre-treatment equipment listed here should be installed in Sydney Water's area of operations, otherwise it may need to be removed at the cost of the installer.

Product type	Manufacturer and contact details	Supplier's item
Dry arrestor pit	Mascot Engineering 1300 885 295	Mascot Dry Arrestor Pit product number S4 and S5 (GRC)
General purpose pit	Aglass Pty Ltd 9542 6511	Aglass General Purpose Pit model: AGL1000GP (1,000 litres) (Fibreglass)
General purpose pit	Aline Pumps Sales and Service 9544 9999	Aline General Purpose Pit model: AGPP-1000 (1,000 litres) (Fibreglass)
General purpose pit	BCP Precast 1800 804 134	BCP General Purpose Pit models: GPP-01000 1000L, GPP-01500 1500L, GPP-02000 2000L (Precast Concrete)
General purpose pit	Mascot Engineering 1300 885 295	Mascot General Purpose Pit models: GP100-1000L, GP150-1500L, GP200-2000L (GRC)
Silt arrestor	Mascot Engineering 1300 885 295	Mascot Silt Arrestor Pit model: SA10-1000L, SA15-1500L, SA20-2000L (GRC)
Plaster trap	Alphabond Dental Pty Ltd 9411 6400	Alphabond Nr 1001 Gipsabscheider Plaster Trap
Solids settlement pit	GJS Machinery Pty Ltd 9790 1649	GJS Solid Separating Filtering Settling Tank – 250 L holding capacity (for the printing industry)
