

MI-YO MI-YO, IT'S OFF TO STAIN WE GO!

MiYO® Liquid Ceramic offers a completely new approach to esthetics. The Jensen MiYO® Liquid Ceramic System gives technicians the ability to create esthetic restorations rivalling natural teeth in an ultra-thin layer. MiYO currently works with all zirconia and lithium disilicate materials and can integrate into any lab workflow. Use MiYO as: a replacement in your existing stain and glaze process, a correction material, or an alternative to other costly hand-layered ceramics.

The set includes 25 jars and 1 liquid, all uniquely designed to create beautiful high-end esthetics for your zirconia and lithium disilicate monolithic restorations. (Ref: J-MI993)

PRETTY IN PINK

The MiYO® Pink Gingival System gives technicians the unique ability to create the depth, vitality and texture found in natural tissue, in unprecedented thicknesses of 0.1mm-0.2mm. The system is comprised of 12 self-glazing colors (6 dense in opacity and 3 highly translucent) and 3 structure materials.

IT'S BULLETPROOF, NOTHING TO LOSE

Introducing BEGO's CAD/CAM milling blanks: Mediloy M-Co for chrome-Cobalt and M-Ti5 for titanium. Available in 98mm diameters and in various heights, these German-made biocompatible and corrosion-resistant might just be the answer you're looking for! Both the M-Ti5 titanium and M-Co chrome-cobalt blanks are perfect for crowns and bridges, metal-ceramics, as well as implant prosthetics.

BEND AND FLEX, REACH FOR THE STARS

Dia-Flex is a synthetic fiber disc coated with diamond pads in two grit sizes (120um/40um). Save time smoothing and eliminate the use of sandpaper in your polishing process. The specially designed flexible diamond pads perfectly adapt to the surface of ceramic and resin materials. The synthetic fibers also increase the life of these 20mm discs and reduces wear compared to Moore's discs, so you're ultimately making a saving when you choose Dia-Flex. (Ref: 2 pcs w/ mandrel: 120um - 34000661, 40um - 34000663, 10 pack refills also available)

SUMMER WILL BE A BREEZE WITH COOL TOUCH CASTING

The new and improved Nautilus® T Induction Cast Cool Touch is a compact, benchtop vacuum pressure-casting machine with integrated power cooling, induction heating and camera system. It's new capability for network connection via LAN or W-LAN enables access to integrated casting log archives, as well as access to the service portal 'my.Bego.com' enables direct remote diagnosis of the device. The large 7" touch display with intuitive menu navigation allows for convenient and easy operation. High-performance induction heating guarantees short melting cycles, minimises oxidation and thus facilitates subsequent finishing. Integrated power cooling not only saves water and helps the environment, it provides for over 50 casts in a row, even

with high ambient temperatures with moulds made of phosphate-bonded investment materials. Save water and helps to protect the environment. (Ref: BG26470EN)

TAKE THE PRESSURE DOWN

The AQUA Stainless Steel Pressure Pot is ideal for a homogenous and blister-free polymerization. The 4.5 litre capacity of this pot gives room for standard articulators, flasks and relin jigs. The pot comes completely equipped with safety valve, manometer and filling valve with filling hose. You know it'll be great because of its German design and manufacturing. (Ref: 100-4.5L)

Also available in a 7 litre capacity. (Ref: 110-7.0L)

YOU'LL BE PICKING UP GOOD VIBRATIONS

The HERTZ Vibrators are powerful and reliable tools which guarantees you considerable power, and adjustability with its electronic circuit. All you need to do to change the vibration intensity is press the "up and down arrows" on the front panel. A variable intensity up to 9 on the small display indicator. In-built and assembled in accordance with standard

safety rules, the vibrator includes a protection fuse, a standard plug, and a green light switch. Its rubber plane can be easily removed for cleaning, which can be done with steam, thanks to the high thermal and mechanical resistance of the rubber. This vibrator is noise-free and guarantees a high steadiness by means of a perfect vertical movement, and thanks to the four little holdfast feet which allow for perfect adhesion to any type of surface. Available in small, medium and large. (Ref: Small - SR192, Medium - SR194 and Large - SR198)
